

# 2024

## “GOLDSTÜCK”

### Riesling *Sweet*

**Alcohol** 10 vol. %

**Acidity** 6,2 g/l

**Residual sugar** 53,4 g/l

## Origin

The grapes for this wine are coming from the Ried Woracziczky in Leutschach. The Soil on this Ried is called Opok. Opok is the regional, common name for a typical Styrian soil: the marl soil, made of limestone marl. These are formerly muddy sea deposits into which rivers washed coarser material such as sand and gravel. Opok is a very dense subsoil that is difficult to work with..

## Vintage 2024

A varied weather pattern with some capricious changes best describes the start of the 2024 wine year. Frost damage and hail were the main challenges in the first half of the year, leading to fewer berries and, ultimately, fewer grapes. However, the beautiful summer weather with adequate rainfall allowed the harvest to begin two weeks earlier, on September 3rd. With 17 harvesting days and magnificent autumn weather, healthy grapes with perfect ripeness were brought into the cellar. The wine of the 2024 vintage is very harmonious. Its beautiful structure and balanced acidity provide great pleasure and drinkability, both in the regional wines and in the village and single-vineyard wines.

## Vinification

Gapes picked by hand. Whole cluster pressing.  
Fermented in steeltanks.

## Tasting note

The Riesling presents itself in a clear, bright golden yellow in the glass. On the nose, a bouquet of fresh yellow apples unfolds, accompanied by exotic notes such as dried pineapple and orange zest. The fruitiness is complemented by a hint of dried apple rings. On the palate, this wine shows a wonderfully balanced acidity that perfectly supports the sweet fruit notes and adds freshness.

## Drinking recommendation

Drinking temperature: 10-12°C degrees

This wine pairs excellently with Asian cuisine, as well as with desserts like quark cream on a fruit purée.
